## THE EARLY YEARS CENTRE

At GEMS Wellington Academy - Al Khail (WEK) located in Dubai Hills

- Purpose-designed nursery provision for children aged 2-5 years old
- Learning driven by child-led discovery and play
- A strong sense of community and belonging
- Instilling a love for learning from a young age

The child is at the heart of everything we do. Our experienced staff are passionate about early years development, providing children with a wide range of play-based experiences which allow them to explore, create, problem solve and express themselves in different ways. We tailor our environments and curriculum to meet the needs, strengths, next steps and interests of every child. Adults are co-learners in the child's play and interactions with the world, encouraging them to discover for themselves and follow their own interests and lines of enquiry.

Our Reggio Emilia inspired setting provides a child-centred and holistic approach to early education. We utilise natural resources, natural light and texture to create a nurturing shared environment where children feel confident and happy. Our purpose-built play spaces aim to offer a home from home for your young child, with a comforting and cosy feel throughout. Our environments are language rich, and staff are trained to promote rapid early language development. Children are encouraged to express themselves in a variety of ways throughout the day, including movement, drama, dance, drawing, painting, building and sculpting.

At the nursery, we strive to create a strong sense of community. We value the interactions and connections that children have with one another, adults and their environment. We work in partnership with parents to celebrate children's early achievements and foster strong links between the home and nursery setting. Daily interactions with families help to inform our curriculum and create new opportunities.

We foster a sense of responsibility and respect, encouraging children to develop independence and self-confidence as they interact with others and develop their own unique personalities. Our carefully designed indoor and outdoor learning spaces support positive relationships and collaboration within the community.

Across the year, we use early years' observational checkpoints to monitor milestones over time, providing a smooth and gradual pathway into the Early Years Foundation Stage and National Curriculum for England.
