## **Key Stage 3 Arabic A Curriculum Year 8**

Rey Stage 5 Arabic A Curriculum	Teal o
Term 1 – Topics/ Key Content	كيف وظف الكاتب أسلوب السرد والوصف لتأزيم الحبكة من النص
قصبة الضبحك في آخر الليل	
أنواع التشبيه	ų.
	······································
استخدام علامات الترقيم	ما دور عنصر المفاجأة في تطور أحداث القصة؟
نص استماع	
C C	ما خصائص الاسلوب الذي اتبعه الكاتب كي يجعل القصة نابضة
و بر مرغ مر و روب مر	بالحياة
استجابة أدبية حول القصة	ما دور تسلسل أحداث القصبة في فهم المغزى العام منها؟
كتابة نص تفسيري حول موضوع محدد	ما أهمية الاستجابة الأدبية في تثبيت الأفكار الرئيسة من الرئيسة؟
	ما السمات الفنية للشعر العمودي؟
(قصيدة شعرية(قوة العلم	ما دور النصوص الشعرية في إبراز قيمة العلم وأهميته؟
	•
	ما نوع الأساليب اللغوية التي يستخدمها الشعراء لإيصال أفكار هم ؟
.t.t. tu	ما دور استخدام اللغة المجازية في تعميق وإثراء النص السردي؟
نص استماع	
عراب المثنى وجمع المذكر السالم والأسماء	
الخمسة	
استجابة أدبية حول القصىة	
: نص معلوماتی	
" أسواق شعبية من العالم "	
· · · · · · · · · · · · · · · · · · ·	
كتابة نص سردي وصفي	
ختبار ات نهاية الفصل الدر اسي الأول في	
المهارات الأتية	
· · · · · · · · · · · · · · · · · · ·	
المطالعة والأدب	
التحدث	
الكتابة الإبداعية	
الحصاب- الإياب مي-	
	ما دور الفكرة التي اعتمد عليها الكاتب لإبراز الغرض من هذه
Term 2 – Topics/ Key Content	القصبة؟
	ما المقصود بالاسترجاع الزمني في البناء القصصي؟
(القصبة القصيرة (الرهان	كيف تأزمت العقدة في القصبة؛وما الحل الذي آلت إليه؟
مراجعة أنواع التشبيه	
نص استماع	الإقناعية؟
(الرهان) التحدث حول موضوع متلق بالقصبة	؟ في كتابة النص الإقناعي ما المعايير الأساسية
<b>C X</b> <i>Y</i>	
	كيفٌ أوظف الجمل الخبرية والإنشائية في الأنواع الكتابية المختلفة؟
(نص معلوماتيّ (أسواق شعبية من العالم	
لأسلوب الإنشائي والأسلوب الخبري في الكتابة	
الإبداعية	
العدد والمعدود	
نص استماع	
تحدث	
(نص وصفي سردي (نص حر	
اللكل والمصلحي شترانان المستان سار	
اختبار في مُهارات اللُّغة العربية الآتية	
اختبار في مُهارات اللُغة العربية الآتية	
: أختبار في مُهارات اللغة العربية الآتية لفهم والاستيعاب (نص مقروء داخلي +نص

# Key Stage 3 Art & Design Curriculum Year 8

Rey Stage S Alt & Design Curriculuit Teal o		
Term 1 to 2 (until the Easter break)– Topics/ Key Content	Term 1 - Overarching Key Questions	
The 'Secret Life of the Sea'		
The 'Secret Life of the Sea' project is a 3D clay project inspired by the natural forms of the sea. Students will begin this project through observational drawings of natural forms relating to the sea. They will develop an understanding of different mark-making techniques enabling them	<ol> <li>What connections can you make between Science and Art?</li> <li>How will you use your developmental studies to develop an outcome?</li> <li>How will using different mediums help you visually illustrate how science and art connect?</li> </ol>	
to understand the formal elements of both		
texture and form.		
They will then be looking at the		
Students will be developing the HPL (High Performance Learning) attributes by <b>linking,</b> <b>creating, and analyzing.</b>		
Term 2 (after the Easter break until the end of	Term 2 - Overarching Key Questions	
Term 3)		
Topics/ Key Content: Dystopian Book Cover	What imagery can we use to represent a word or a theme?	
	How will you demonstrate your understanding	
The Dystopian Book Cover project is a cross	of composition within this project?	
curricular project with English whereby the student will learn the importance and	How do you believe Dystopia is visually	
understanding of Art translates and has	represented?	
connections with other subjects. Students will be studying three extracts in English under the		
theme of Dystopia and will use the theme within		
these extracts as the basis and theme for the		
Dystopian Book Cover design. They will develop		
their practical responses through drawing, digital		
manipulation, and mixed media collage before they produce their final book cover design.		
They will be developing skills within the composition.		
Alongside practical outcomes and developments students will also be expected to analyse, annotate, and evaluate their work and the work of the artists in which they study to develop their literacy and analytical skills.		

Assessment Overview and Format: Links for Home Learning/Extension Resources: Students will be marked on 4 assessment Students will be given homework once every objectives: two weeks. This make be in the form of research tasks, completing classwork. Research Homework will be set on Go4 Schools and Observations students will be expected to complete their Developments homework by the set deadline. Final Outcomes Students will also be expected to use the library The aim of this is to get students confident with alongside devices where necessary to complete how work is assessed at Key Stage 4 and Key their homework to a high and expectable Stage, giving them prior knowledge and standard. experience. Students will also be assessed on their written analyses and annotations and evaluations alongside their practical developments. They will be numerically graded from 1-9

## Key Stage 3 Computing Curriculum Year 8

Key Stage 3 Computing Curriculum Yea Term 1 – Topics/ Key Content	Term 1 - Overarching Key Questions
Computer Crime and Cyber Security	
This unit covers some of the legal safeguards regarding computer use, including overviews of the Computer Misuse Act, Data Protection Act, and Copyright Law and their implications for computer use. Phishing scams and other email frauds, hacking, "data harvesting" and identity theft are discussed together with ways of protecting online identity and privacy. Health and Safety Laws and environmental issues such as the safe disposal of old computers are also discussed. Safety is discussed outside the realm of e-safety which is covered in greater detail in the Using computers safely, effectively, and responsibly unit.	How can you protect yourself? Where are our vulnerabilities? Is it really as simple as that to get hacked? Why is my data so valuable? How do Snapchat, Instagram, Facebook, and Twitter use my data?
<b>Graphics</b> This is a more in-depth unit exploring different graphics and file types. The unit explores how bitmap and vector images are represented and stored by the computer. There is also an opportunity for pupils to practice skills in design, photo editing, and image manipulation using layers to create a movie poster using a suitable graphics package such as Photoshop.	What does manipulation mean in the graphics industry? How can hundreds of photoshop tools be used to create a mind-blowing graphic? How do filters take form? What is the function of layers and just how important are they?
Term 2 – Topics/ Key Content	Term 2 - Overarching Key Questions
Data Science	
In this unit, learners will be introduced to data science, and by the end of the unit, they will be empowered by knowing how to use data to investigate problems and make changes to the world around them. Learners will be exposed to both global and local data sets and gain an understanding of how visualising data can help with the process of identifying patterns and trends.	What is the difference between data and information? Is it easier for me to make decisions from data visualization? How did John Snow use data visualization to find the core reason Cholera was wiping people out in the 1800s?

Animation	in	cc
Ammation	ш	ιι

In this unit, pupils will learn how animations are created and use a variety of drawing and animation techniques including tweening and motion paths in order to plan, create and export a multi-layered animation into a format that can be played as a standalone file or as a moving image	How big is the animation industry? What needs changing to make the overall transition of animation appear smoother? Are the possibilities endless when it comes to
within a web page. The unit includes theory on	animating?
frame rates and the effect on file size. Pupils are encouraged to analyse existing animated advertisements before planning and creating their own to deliver effective messages to a specific audience. ActionScript is also introduced in order to add interactivity to their advertising banners.	What are the key principles of animating?
Term 3 – Topics/ Key Content	Term 3 - Overarching Key Questions
Python	
In this unit, students will address various in-depth components within Python programming. We will start with an introduction to the basics and this	
will follow by 30 exercises of various degrees of difficulty, helping students to improve their programming skills effectively. Detailed sample	How can I identify when a problem needs to be broken down?
solutions, including the algorithms used for all tasks, are included to maximize student	Can events control the flow of a program?
understanding of each area.	Can I now Identify and fix common coding errors?
Developing Databases	
This unit covers the essential theory of databases in order to prepare pupils for GCSEs in either	Are there different types of databases?
Computing or ICT. Supporting the basic theory, this unit has a practical focus, covering the creation and use of a single-table database and/or	How does one distinguish between different database types?
a simple relational database involving two tables is one- a to-many relationship using MS Access.	Can 'queries' make life easier?
Students will engage in the concept of databases using a number of "Unsolved Crimes" and a database of suspects, from which pupils must use	How often do we come across databases in our daily lives?
queries to find the culprit for each of the cases they have been allocated. They will also create a flat-file or two-table relational database of their own, using suitable field types and adding in appropriate validations.	Is our entire life stored on multiple databases? E.g. passport details, bank accounts, banking, finance, etc.

They will create an input form, queries, a report and a front-end menu for their own application	
Assessment Overview and Format	Links for Home Learning/Extension Resources
Each unit contributes an equal weight toward the final grade (6 units). Students are formally assessed in an end-of-topic assessment after the completion of each unit, throughout the year. Alongside this, students are assessed on mini projects, keyword assessments ,and flipped learning during class.	A large library of resources is available in the TEAM section whereby students will have access to all their worksheets, assessments, and quizzes to revise from. <b>Cyber security</b> https://www.bbc.co.uk/bitesize/guides/zrtrd2p /revision/3 <b>Graphics</b> https://www.bbc.co.uk/bitesize/guides/zv2v4w x/revision/2 <b>Python</b> https://www.bbc.co.uk/bitesize/guides/zqh49j 6/revision/2 <b>Databases</b> https://www.bbc.co.uk/bitesize/guides/zswnb9 q/revision/1

## Key Stage 3 Design & Technology Curriculum Year 8

Key Stage 3 Design & Technology Curriculum Year 8		
Term 1 – Topics/ Key Content	Term 1 - Overarching Key Questions	
Graphics – Keyring		
During this project, students will explore the work of graphic designer John Burgerman. They will explore imaginative and original ways of creating character designs, then they will create an original piece of work. Students will then turn this design into a keyring using CAD/CAM. Students will follow the design process throughout the project and once they have manufactured their keyring they will test and evaluate their work.	abstract character?	
Food Preparation and Nutrition – Bread		
Students will know how to prepare food correctly and safely. They will explore the topic 'bread' and make a variety of food products under this theme. Students will also explore the food science behind how bread rises and consider the nutritional information for the dishes they have made.	Why is hygiene and precision important in the food room? (Analysing) Are you confident taking risks and adapting recipes, taking into consideration the taste and function of ingredients? (Empathetic, Agile)	
	What connection can you make between food and science? (Linking)	
Term 2 – Topics/ Key Content	(Linking) Term 2 - Overarching Key Questions	
Graphics – Keyring Food Preparation and Nutrition – Bread These 2 projects will continue until the February half term, each project is 8 weeks.	How will you use what you learnt during the previous projects to support you during this project? (Meta-thinking, Linking)	
Product Design – Nightlight		
Students will be making a nightlight this term. The nightlight is made from timber and plastic and students will further develop their woodworking and CAD/CAM skills. The nightlight includes an electronic circuit that the students will assemble	How does having an enquiring mind benefit the research process? (Agile)	
and solder. Students will be shown how to use the tools and equipment correctly and safely. Students	Why is it important to work collaboratively when learning to solder? (Empathetic)	

will follow the design process throughout the project. <i>Textiles – Mini Monsters</i> During this term, students will make a fabric toy, a 'mini monster'. The toy will be made using a variety of hand stitches and will include different textile skills such as appliqué and decorative processes like button application. Students will understand how to use tools and equipment correctly and safely in the manufacture of their toy. Students will follow the design process during this project.	Why is planning a significant step before
Term 3 – Topics/ Key Content	Term 3 - Overarching Key Questions
Product Design – Nightlight Textiles – Mini Monsters These 2 projects will continue until the end of the year, each project is 8 weeks.	See Above
Assessment Overview and Format:	Links for Home Learning/Extension Resources:
<ul> <li>In Design &amp; Technology we assess using the same format as in GCSE, students are assessed on the following: <ul> <li>Research skills</li> <li>Design and Development skills</li> <li>Practical</li> </ul> </li> <li>Students will also participate in a baseline assessment and an end-of-year assessment, these will test students' knowledge across all three-subject areas.</li> <li>They will be numerically graded from 1-9</li> </ul>	All home learning is uploaded onto Showbie and Go4Schools. The work is mostly a continuation of skills and tasks we have started in the lesson, used as retrieval exercises, as this helps students prepare for the style of homework if the subject is taken at GCSE. On occasion, this can be related to research for a topic, analysis of a design workpiece, or a skill-building exercise.

Term 1 – Topics/ Key Content	Term 1 - Overarching Key Questions
Exploration of a set text 'Mugged'	
Students will explore the play 'Mugged'; gaining an understanding of the themes, issues, relationships, and characters within	What do we know about the play based on the title? What is meant by mob mentality?

They will perform extracts from the play and include their own off-text improvisation for their assessment.

**Key Stage 3 Drama Curriculum Year 8** 

#### Commedia Dell' Arte

the play.

This unit of work will allow students the opportunity to discover the 16<sup>th</sup> Century Italian genre of theatre which has influenced many contemporary genres of theatre and film that we see today.

Students will learn and practically explore the conventions of the genre which include physical theatre, masks, stock characters and improvisation. As part of their assessment they will write, direct and perform in the genre of Commedia.

Why do the characters act the way that they do? What can we infer about their lives up to this moment?

> Is there a difference between physical theatre and dance?

> How can you create a three-dimensional character whilst still adhering to the conventions of commedia?

Term 2 – Topics/ Key Content Term 2 - Overarching Key Questions What is continuity?

This unit gives students an introduction to TV acting. Students will learn about camera angles, movement on screen, and editing.

Why is a movement coach important for screen acting? How does acting/directing for screen compare to acting/directing on stage?

**Murder Mystery** 

**Acting for Screen** 

This exciting unit of work not only develops students' performance skills but also allows How might persuasive language be useful in this

them the opportunity to think logically, analyse evidence and work collaboratively as they work towards discovering the culprit. In terms of performance skills, they must consider their use of language, status and register of voice as they work as detectives, journalists, researchers and pathologists.	unit of work? What skills should you employ to show your high/low status? As a performer, how will you make the subtext of your character clear?
Term 3 – Topics/ Key Content	Term 3 - Overarching Key Questions
Stage Combat and Characterisation Throughout this unit of work, students will focus on portraying different character relationships, statuses, and motivations, the seven levels of tension, and the art of stage combat.	What is characterisation? How does your devising link to the previous genres that we have studied in drama so far?
Mini Theatre Company This project provides students with the opportunity to work in a real theatre company. They will gain an understanding of the various careers and job roles within the theatre, film, and media industries and have experience working in some of these roles. Students will work as performers, directors, and designers in preparation for GCSE Drama.	Key Questions will differ depending on the style and genre each group decides to work on. Examples of generic questions are: Why is it important to work collaboratively? How does the role of the director differ from that of the designer? What is the message of the performance? How are the directors, designers, and performers making this clear to the audience?
Assessment Overview and Format:	Links for Home Learning/Extension Resources:
Drama is assessed in three key areas;	Students will be set an extended piece of

AL KHAIL

creating, performing, and responding. Towards the end of each unit of work, students will be assessed on the learning of that unit.

Students will be made aware of which assessment objectives they are being looked at ahead of the assessment. homework/research to complete throughout the academic year. In addition to this, they should try to expose themselves to as much theatre as possible whether that be live or recorded.

https://www.bbc.co.uk/bitesize/subjects/zbckjxs

Key Stage 3 English Curriculum Year 8		
Term 1 – Topics/ Key Content	Term 1 - Overarching Key Questions	
Conflict Poetry	How can I analyse the language and structure of a poem? What techniques do poets use to engage the reader? How does the poet present the theme of conflict? How does the poet convey the horror of war? Can I write a PETAL paragraph to analyse key quotations?	
Non-Fiction: Conflict	What is non-fiction? What is the difference between first- and third-person narrative? How are persuasive techniques used in non-fiction texts? How is language used to persuade someone to visit Alcatraz? What impression of Alcatraz is presented to the reader? How can I use persuasive techniques to convince the reader?	
Term 2 – Topics/ Key Content	Term 2 - Overarching Key Questions	
Novel Study	Key Questions for this unit will vary depending on the novel being studied. However, here are some general key questions regarding the study of a novel: What makes the opening of a novel effective? How do writers use language to present characters/themes/ ideas? How do writers create tension or suspense? How do characters change? What makes them change and is it always for the better? Can I write a PETAL paragraph to analyse key quotations?	
Term 3 – Topics/ Key Content	Term 3 - Overarching Key Questions	
Dystopian	What are the key features of the dystopian genre? How can I use dystopian vocabulary in my writing? How does the writer use language and structure to present governmental control in '1984'? How does the writer use language and structure to engage the reader? Can I use the PETAL structure to analyse key quotations? How can I create an effective piece of dystopian writing?	

#### V. v Stage 2 English Curriculum Vear 8

#### Assessment Overview and Format:

The assessments are set in English at the end of each unit of work to showcase the progress each student has made. Year 8 assessments will have a clearly indicated reading or writing focus. The relevant assessment objectives will be shared at the start of each unit.

Assessments will take place in the penultimate week of each halfterm.

For writing assessments, typically students will be asked to write a descriptive piece about a character or setting. Writing assessments will normally require students to analyse an extract and complete either comprehension or analysisstyle questions.

### Links for Home Learning/Extension Resources:

Students in Year 8 will be set Home Learning tasks on www.noredink.com

In addition, we recommend that students read for at least 20 minutes per day in order to develop their vocabulary and fuel their imagination.

There is a WEK Reading Challenge in the student planner.

Key Stage 3 French Curriculum Year 8

Rey Stage 5 French Curriculum	
Term 1 – Topics/ Key Content	Term 1 – Key Grammar Concepts
<ul> <li>T'es branché: You are cool!</li> <li>Talking about television programs <ul> <li>Talking about films</li> <li>Talking about reading and types of books</li> <li>Talking about what you do on the Internet</li> <li>What did you do yesterday evening?</li> </ul> </li> <li>Project Zone: Charlie and the Chocolate Factory.</li> </ul>	<ul> <li>Present tense of er verbs</li> <li>Ne pas and ne jamais</li> <li>Present tense of avoir and être</li> <li>Using je suis fan de</li> <li>Expressing opinions</li> <li>Present tense of aller and faire</li> <li>Time expressions.</li> </ul>
Term 2 – Topics/ Key Content	Term 2 – Key grammar concepts
<ul> <li>Paris, je t'adore: Paris I love you! Saying what you did in Paris</li> <li>Saying when you did things</li> <li>Understanding information about a tourist attraction</li> <li>Saying where you went and how you got there</li> <li>Talking about things you've done and things you usually do.</li> </ul> Project Zone: A trip to a French- speaking country.	<ul> <li>Avoir in the present tense</li> <li>The perfect tense regular verbs</li> <li>C'était + adjectives</li> <li>The perfect tense with être</li> <li>Agreements Making sentences negative.</li> </ul>
Term 3 – Topics/ Key Content	Term 3 – Key grammar concepts
Assessment Overview and Format:	Links for Home Learning/Extension Resources:
There are 3 Key Assessment points throughout the year which contribute 100% to the current working grade.	www.linguascope.com www.languagesonline.org.uk
Summative assessment of Listening, Reading, and Writing at the end of each module.	Students are also given a booklet for each topic of study which contains everything they need.
Formative assessment of speaking through classwork and participation.	

## **Key Stage 3 Geography Curriculum Year 8**

Term 1 – Topics/ Key Content	
Term 1 – Topics/ Key Content Tectonic Hazards This term students will be studying plate tectonics. Firstly, they will learn about Volcanoes and how they form, erupt, and their effects. Secondly, they will learn about predicting and preparing for earthquakes, how they form and their damage. Lastly, students will learn about Tsunamis, how they form, their damage, and recovery. For each tectonic hazard, students will be learning a case study from either a richer or a poorer country. Students will also be researching recent plate tectonic activity. Sustainable Food Map and evaluate the different effects on people To evaluate whether the issue arises due to social, economic, or environmental reasons To evaluate how sustainable the food we eat To understand how food miles, packaging, and energy can contribute to sustainable food choices To understand how our shopping habits can impact others To evaluate solutions to our global food crisis	<ul> <li>eruptions?</li> <li>What are the effects of earthquakes, tsunamis, and volcanic eruptions?</li> <li>How can people protect themselves from earthquakes?</li> <li>Why do natural disasters cause more deaths and damage in LICs than MICs?</li> <li>How do I describe distribution on a map?</li> <li>How can we respond to a tsunami?</li> <li>What are the patterns of global food</li> </ul>
<ul> <li>Term 2 – Topics/ Key Content</li> <li>Climate Change <ul> <li>To understand the causes and effects of climate change</li> <li>To understand how the effects of climate change can be managed</li> <li>To understand the likely impacts and who will be affected</li> <li>Understand what are sustainable solutions</li> </ul> </li> </ul>	<ul> <li>Term 2 - Overarching Key Questions</li> <li>Can Climate change?</li> <li>How are countries contributing to global warming?</li> <li>How do individuals cause the climate to change?</li> <li>How can we manage the effects?</li> </ul>

Trading places - Trade and development Students will examine the differences in trade between Higher and Lower income countries and how this can affect development. They will consider sustainable solutions to overcome these inequalities.	<ul> <li>To learn key Geographical terms and their application</li> <li>To recognise similarities and differences in living standards between LEDC and MEDC</li> <li>To carry out a simulation task</li> <li>To understand how development can be measured</li> <li>To understand how trade affects wealth in MEDCS and LEDCs</li> <li>To understand the difficulties that LEDCs face when trying to become more economically developed</li> </ul>	
Term 3 – Topics/ Key Content	Term 3 - Overarching Key Questions	
Tropical Rainforests Students will examine where rainforests occur, and the natural features and unique biodiversity of these biomes. They will also examine the impacts of people using the rainforest, both positive and negative.	<ul> <li>Where are the Tropical Rainforests?</li> <li>What is a Climate Graph?</li> <li>What is the climate like in the rainforest?</li> <li>What are the layers of the Rainforest?</li> <li>How do animals of the Rainforest adapt?</li> <li>What is causing threatened species?</li> <li>Tribes of the Rainforest</li> <li>Using the Rainforest and Deforestation</li> </ul>	
Assessment Overview and Format:	Links for Home Learning/Extension Resources:	
Students will be assessed through a variety of classwork and home-learning activities. Final assessments during the Key Assessments will include extended writing, problem-solving, map drawing, and investigation. These will be marked as per the whole school KS3 assessment policy.	Due to the number of books available for this subject, we will not be working from one textbook or only from the textbook. However, the Key Geography series (by David Waugh), are useful reference books and these can be used in class. Students would benefit from having their own Atlas to use at school and at home. Although one can be borrowed in class. An excellent digital resource is also the BBC Bitesize website – Key stage 3 Geography

AL KHAIL

## Key Stage 3 Mathematics Curriculum Year 8

#### Term 1 to February half term – Topics/ Key Content

Unit 1: Number Calculating with negative integers, Prime factor decomposition, HCF LCM, Using indices, BIDMAS

Unit 2: Algebra Revising year 7 Algebra

Unit 3: Geometry Area of triangles, compound shapes, circles, Parallelograms and trapezia, Area of compound shapes, Properties of 3D solids, Surface area, Volume

Unit 4: Graphs Direct proportion, Speed/Distance/Time, Reading a speed/time graph

## Term 2 February half term onwards – Topics/ Key Content

Unit 5: Number Indices (Up to negative/Change the base), Standard form

Unit 6: Geometry Similar triangles, Pythagoras theorem, Trigonometry (SOH CAH TOA)

Unit 7: Statistics P () notation, Experimental probability, Estimating probability, Tree diagrams

Unit 8: Number Percentage of amounts, Percentage Increase/decrease, Percentage change, Reverse percentages, Compound interest

### Term 3 – Topics/ Key Content

Unit 9: Algebra Plotting linear graphs, The gradient, y=mx+c, Parallel/Perpendicular lines, Midpoint Unit 10: Statistics Mean from grouped frequency table, Interquartile Range (IQR), Cumulative frequency graphs

Unit 11: Geometry Angles in parallel lines, Angles in polygons, Angles proof

Unit 11: Geometry Angles in parallel lines, Angles in polygons, Angles proot

## Key Stage 3 Moral, Cultural, and social studies Curriculum Year 8

Term 1 – Topics/ Key Content	Term 1 - Overarching Key Questions:
<ul> <li>First Aid</li> <li>Staying Safe at Home and Abroad</li> <li>The Risk of Strangers <ul> <li>Ways to Act Upon Exposure to Chase</li> </ul> </li> <li>First Aid <ul> <li>Studying Crimes</li> </ul> </li> </ul>	<ul> <li>How can I stay safe at home and abroad?</li> <li>What first aid techniques can I learn to help others?</li> </ul>
<ul> <li>Human Needs</li> <li>Necessities of Life</li> <li>Basic Needs</li> <li>Psychological Needs</li> <li>The Needs of Self-Realization</li> <li>Meeting Human Needs and Conflicts</li> </ul>	-How can I be healthy and happy in my everyday life?
Assessment Overview and Format:	
Students will have summative assessment throughout the year. This may be in the form of keyword tests or short essay style questions	Links for Home Learning/Extension Resources: Students will need to prepare at home for their assessments and they can revise the MSCS curriculum by using their booklets and class resources.

Term 2 - Topics/Key content:	Term 2 Overarching Key Questions:
East Asia – China Students will learn about East Asia and how people affect the environment including: -The Geography of East Asia -Engineering and Civilization in Ancient China -Chinese Technology, Science and Medicine -Culture Through Art in China in 1770 -Korea's Renaissance	-What was the importance of the natural environment to people in the past and in the present? -What actions can you take to defend human dignity?
South Asia – India Students will learn about South Asia and exploring civilizations including: -The Geography of South Asia -Ancient Civilizations of South Asia -Ancient India – Mauryan to Gupta Empires -Arrival of Islamic Civilization in India and the Delhi Sultanate -Origins of Science in South Asia -British in India -Economy and Cities of South Asia	
Assessment Overview and Format: Students will have summative assessment throughout the year. This may be in the form of keyword tests or short essay style questions	Links for Home Learning/Extension Resources: Students will need to prepare at home for their assessments and they can revise the MSCS curriculum by using their booklets and class resources.

Term 3 - Topics/Key content:	Term 3 Overarching Key Question:
<u>Central Asia – Part 1</u> Students will learn about Central Asia, including: -An Introduction to Central Asia -The Silk Road -The Culture of Central Asia	-How does the environment and climate of Central Asia impact the culture of its inhabitants?
<b>Central Asia – Part 2</b> Students will learn about Central Asia, including: -Kazakhstan -Kyrgyzstan and Tajikistan -Turkmenistan and Uzbekistan -Russia, USSR and the Cold War	
Assessment Overview and Format: Students will have summative assessment	Links for Home Learning/Extension Resources: Students will need to prepare at home for their assessments and they can revise the MSCS curriculum by using their booklets and class resources.

Rey Stage S Music Curriculum real o	
Term 1 – Topics/ Key Content	Term 1 - Overarching Key Questions
<ul> <li>Hooks and Riffs</li> <li>Hooks and Riffs explores music based on repeated musical patterns through the genres of Popular Music and Music from the Western Classical Tradition. This topic aims to combine the inter-related musical strands of: <ul> <li>Performing: Playing and Singing;</li> <li>Creating - Composing and Improvising</li> <li>Critical Engagement: Listening and Appraising.</li> </ul> </li> <li>The music theory focus of this unit is on treble and bass clef symbols as an indication of pitch and musical repeat markings and symbols.</li> <li>Off-Beat</li> </ul> Off-Beat This topic begins by exploring the origins of Reggae music from Mento, Ska and Rock Steady and looks at the famous Reggae musician, Bob Marley, and his influence on a worldwide audience. It uses two Reggae songs as case studies to explore the musical features of the genre: <i>Yellow Bird</i> and <i>Three Little Birds</i> . Students learn about the different textural elements that make up a Reggae song, and their harmonic language is extended and developed. The topic ends with students creating their own short set of lyrics using Jamaican speech-style on a specific subject <i>e.g. Black Lives Matter, School etc.</i> or by taking a well-known melody or song (of their choice) and researching the lyrics, chords etc. and creating a Reggae arrangement of it using the different textural layers explored during the unit.	<ul> <li>How can you distinguish and differentiate between then when listening and performing?</li> <li>What effect does using repeated musical patterns in a piece of music have on the listener?</li> <li>What are Reggae songs about?</li> <li>Who was Bob Marley?</li> <li>How does the use of Offbeat and Syncopated Rhythms within Reggae music give it its "characteristic feel?"</li> <li>How are Chords and Riffs used in Reggae music?</li> </ul>
Term 2 – Topics/ Key Content	Term 2 - Overarching Key Questions
Variations The topic begins by exploring basic ways to vary an existing theme using the elements of music and simple musical devices. This is then developed by progressively exploring and using more complex variation techniques. This is then developed by progressively exploring and using more complex variation techniques. This is then developed by progressively exploring and using more complex variation techniques including: <i>augmentation, diminution (revision of note values), canon/round</i> and <i>adding a counter melody</i> , before students learn how to vary a theme using changes in tonality and investigate how <i>inversion, retrograde</i> and <i>retrograde inversion</i> can be applied to a theme as more advanced variation technique.	<ul> <li>the Tonality of a melody using major, minor and modes?</li> <li>To what extent does a melody which has been varied become unrecognisable from the original?</li> <li>How is improvisation used in Blues and Jazz?</li> </ul>
All That Jazz This topic develops student's understanding of the key musical features of Jazz and Blues, exploring chords, chord	

This topic develops student's understanding of the key musical features of Jazz and Blues, exploring chords, chord patterns and how improvisation is used within Jazz and Blues genres. The characteristic 12-Bar Blues chord pattern makes a traditional starting point for the unit with students

learning chords I, IV and V as triads in C Major before pupils extend these into seventh chords triads and turn these into a Walking Bass Line. The Blues Scale introduces a new melodic resource on which to improvise using ostinato, riffs and fills within the 12-Bar Blues.

Term 3 – Topics/ Key Content

#### All About That Bass

Bass Clef Reading and Notation forms the foundation of this topic which explores a range of commonly used Bass Line Patterns within a variety of different types, styles, and genres of music from different times and places Students begin by exploring the various meanings of the term 'bass' before looking at the Bass Clef and the names of the notes in the lines, spaces and ledger lines on the Bass Stave. Instruments and voices which use the Bass Clef are referred to throughout the module. Bass Line Riffs, as short, memorable, repeated Bass Line Patterns are explored as students realise and perform some famous Bass Line Riffs from Bass Clef Notation from the genres of Rap and/or Hip-Hop.

#### Saharan Sounds

Students explore the effect of Syncopation on rhythms, learning about its offbeat feel and emphasis on the weaker beats before exploring how Call and Response is used in African Music, again through creating, composing, performing and improvising their own Call and Response rhythms and the role of the Master Drummer. Students explore African Musical Instruments and the different timbres and sonorities that these produce before combining their learning of Cyclic Rhythms, Polyrhythms, Syncopation and Call and Response into an African-inspired piece.

#### Term 3 - Overarching Key Questions

- How do you read and play from Bass Clef Staff Notation?
- What musical instruments use the Bass Clef?
- What are the different ways of creating and performing a Bass Line?
- How do Bass Lines and Bass Line Patterns relate to song structure, texture, harmony, chords, and melody lines?
- To what extent, within such an international global society, is Rock 'n' Roll song writing "dead"?
- What instruments are used in African Music?
- How are different sounds produced on an African Drum?
- What is the role of the Master Drummer in African Music?
- How are rhythms used within African Music?
- How are rhythmic devices, such as cyclic and polyrhythms, call and response and syncopation used in African Music?
- To what extent has African Music influenced other genres of world, popular and "classical" music?
- To what extent is rhythm the sole focus of African Music?

Listening to Balinese and

Javanese Gamelan music in which

textures) and variation techniques

are central features of the musical

embellishment (heterophonic

style.

## Links for Home Learning/Extension Resources:

Students are assessed in an end of topic assessment after the completion of each unit through listening and appraising, composing and performing. Alongside this, students are assessed on mini projects, key word assessments and flipped learning during class. There will also be three Key Assessments which will include: Ensemble Performance

Assessment Overview and Format

Solo Performance Band Project • Perform compositions in assembly to contribute to international ethos at school e.g., "Black Lives Matters Day

Watch online videos of famous bass singers *e.g., Willard White* performing in different contexts *e.g., live concert performances, operas etc.* 

## **Key Stage 3 Physical Education Curriculum Year 8**

Term 1 – Topics/ Key Content	Term 1 - Overarching Key Questions
Invasion Games and Swimming <u>Half Term 1 (to October half term)</u> Girls – Netball and Football Boys – Football and Swimming <u>Half</u> Term 2 (to December vacation) Girls – Swimming and Netball Boys – Football and Athletics	<ul> <li>Skeletal System</li> <li>What are the functions of the skeleton?</li> <li>Can you name the major bones in the body?</li> <li>Bones</li> <li>Can you name the major bones in the body?</li> <li>Classification of bones and their use in sport</li> <li>What types of bones do we have and which are used for different types of sporting actions?</li> </ul>
Term 2 – Topics/ Key Content	Term 2 - Overarching Key Questions
Athletics and Invasion Games A key focus during Term 2 is preparing students for Sports Day. <u>Half Term 1 (to February Half Term)</u> Girls - Athletics and Netball Boys - Athletics and Rugby <u>Half Term 2 (to April vacation)</u> Girls – Basketball and Rounders Boys – Basketball and Cricket	Veins, arteries, capillaries What are blood vessels? What are the main differences between each blood vessel? Short- and long-term effects of exercise on the CV system What are the short- and long-term effects of exercise on our heart, lungs, muscles, and joints?
<b>Term 3 – Topics/ Key Content</b> <u>During Ramadan</u> Boys and Girls – Rock Climbing, Trampolining, Badminton <u>Outside of Ramadan</u> Boys – Swimming, Cricket, Volleyball Girls – Swimming, Rounders, Volleyball	Term 3 - Overarching Key Questions Training Zones What are training zones? How do we know what zone we are working in? Why is this important?
Assessment Overview and Format: Students are assessed 90% on their practical ability and a further 10% on their knowledge and understanding of	Links for Home Learning/Extension Resources:

the theoretical content covered. The	
theory content will be assessed by 3	
termly written exams.	

# Key Stage 3 Science Curriculum Year 8

	TERM 1
HEALTH AND	Describe the components of a healthy diet and their functions in the body
LIFESTYLE	Compare the nutritional content of different foods or diets
	Describe the effects of deficiencies or excesses of different nutrients on a person
	health
	Describe how to test food for starch, lipids, sugar, protein
	Describe the positive result for each food test
	Recall how you get and use energy
	Describe some health issues caused by an unbalanced diet
	Calculate the energy requirement of different people
	State what happens during digestion
	Describe the structure of the main parts of the digestive system
	Describe how components of the digestive system are adapted to their function
	Describe the role of enzymes in digestion
	Describe the role of bacteria in digestion
	Describe all the events that take place in turning a meal into simple food
	molecules
	Describe the effects of tobacco smoke on health
	Explain the effects of tobacco smoke on health
	State what happens during aerobic respiration
THE PERIODIC	State what the groups and periods of the Periodic Table tell you about the
TABLE	elements
	Use data to describe a trend in physical properties
	Use patterns in data for physical properties to estimate a missing value for an
	element
	State the properties and reactivity of Group 1 elements
	Use data and observations to describe trends and predict properties of Group 1
	elements.
	Describe the reactions of any Group 1 element.
	State the properties and reactivity of Group 7 elements
	Use data and observations to describe trends and predict properties of Group 7
	elements
	Describe the reactions of any Group 7 element.
	State the properties and reactivity of Group 0 elements
	Use data and observations to describe trends and predict properties of Group 0
	elements
	Describe the reactions of any Group 0 element.
ELECTRICITY &	lice an analogy or model to explain potential difference
	Use an analogy or model to explain potential difference
MAGNETISM	Draw circuit diagrams and make circuits that measure potential difference
	Explain how potential difference affects the way components work
	Use a formula to calculate resistance
	Make circuits and describe what components with resistance do
	Explain how resistance affects the way components work
	Use a model or analogy to explain resistance
	Describe the potential difference across components in series and parallel
	circuits
	Make series and parallel circuits from circuit diagrams Describe what is meant by current

	Describe what happens to current in series and parallel circuits
	Describe what happens to current when you change components in a circuit
	Describe the properties of an electric field
	State how charged objects interact
	Describe what happens when charged objects are placed to near to each other Use a sketch to describe how objects become charged up
	Describe how magnets interact
	Describe how magnetic field diagrams tell you about the direction and strength of
	a magnetic field
	Explain observations about navigation using the Earth's magnetic field
	Describe how to make an electromagnet
	Use a diagram to explain how to make an electromagnet and how to change its
	strength
	Describe how the strength of an electromagnet changes with distance.
	Explain why you choose an electromagnet rather than a permanent magnet for a
	purpose
	Describe how electric bells, circuit breakers, and loudspeakers work.
PERPOPULATION	State where a plante reproductive system is farmed
REPRODUCTION	State where a plants reproductive system is found
	Name some methods of pollination
	Identify the structures of a flower and link their structure to their function
	Describe the differences between wind pollinated and insect pollinated plants.
	State what seeds and fruit are
	State what is meant by fertilization
	Describe the process of germination
	State the ways seeds can be dispersed
	Describe how a seed is adapted to its method of dispersal
	Explain why seed dispersal is important to the survival of the parent plant and its offspring
	State the causes of variation in a species
	Explain whether characteristics are inherited or environmental
	State the two types of variation
	Describe the difference between continuous and discontinuous variation
	Represent variation within a species using graphs
	Describe how variation helps species to survive environmental changes,
	Explain how species are adapted to their environments
	Explain how organisms adapt to environmental changes
	List the changes that take place during puberty
	State the difference between adolescence and puberty
	Describe the main changes that take place during puberty
	Name the main structures in the male and female reproductive systems including
	gametes
	Describe the function of the main structures in the male and female reproductive
	systems
	Describe the structure and function of gametes
	State what is meant by fertilization
	Describe the process of fertilization
	Describe causes of low fertility in male and female reproductive systems
	State what is meant by gestation
	Describe what happens during gestation and birth

	Explain whether substances are passed between the mother and fetus
	State what the menstrual cycle is
	State the length of the menstrual cycle
	Describe the main stages of the menstrual cycle
	TERM 2
SEPARATING	State the properties of a pure substance
TECHNIQUES	Name four common substances that are mixtures
	Explain how to use melting temperatures to identify pure substances
	Describe solutions using key words
	Explain how substances dissolve using the particle model
	Explain the meaning of solubility
	Use solubility curves to explain observations about solutions
	State why it is possible to separate mixtures
	State why filtration works to separate a particular mixture
	Choose when to use filtration to separate mixtures
	State why it is possible to separate mixtures
	State why evaporation works to separate a particular mixture
	State why distillation works to separate a particular mixture
	Choose the most suitable technique to separate a mixture of substances
	Describe how chromatography separates substances
	Use evidence from chromatography to identify unknown substances in mixtures
ENERGY	State the unit of energy content of food
	Compare the energy values of food and fuels
	Compare the energy in food and fuels with the energy needed for different
	activities
	Describe the energy resources used to generate electricity
	Explain the advantages and disadvantages of different energy resources
	Describe how energy is transferred from an energy resource to an electrical device
	in the home
	Describe what you pay for when you pay your electricity bill
	Calculate the cost for home energy usage
	Compare the energy usage and cost of running different home devices
	Use a model of energy transfer between stores to describe how jobs get done.
	Describe how the energy of an object depends on its speed, temperature, height
	or whether it is stretched or compressed
	Show how energy is transferred between energy stores in a range of real-life
	examples
	Describe what dissipation means
	Calculate the useful energy and the amount dissipated, given values of input and
	output energy
	Explain how energy is dissipated in a range of situations
WAVES LIGHT	Describe what happens when a light ray meets a different medium
	State the speed of light
	Use ray diagrams of eclipses to describe what is seen by observers in different
	places
	Describe how light is reflected from a mirror
	Describe how images are formed in a plane mirror
	Use ray diagrams to show how light reflects and forms images
	Describe what happens when light enters a medium

Use a ray-diagram model to describe how light passes through lenses and		
transparent materials		
Construct a ray diagram to show how light refracts		
Name parts of the eye		
Use ray diagrams to describe how light passes through the lens in your eye		
Describe how lenses may be used to correct vision		
State the difference between different colours in terms or frequency		
Use the ray model to describe how objects appear different colours and how		
is refracted through a prism		
Explain observations where coloured lights are mixed or objects are viewed	ın	
different lights		
ADTATIONS Describe resources plants and animals compate for		
APTATIONSDescribe resources plants and animals compete forDDescribe how organisms are adapted to their environment		
5 1		
Describe how competition can lead to adaptation		
Describe how variation of species occurs		
Describe the difference between environmental and inherited variation		
Describe the difference between continuous and discontinuous variation		
Represent variation within a species using graphs		
Describe the theory of natural selection.		
Explain why species evolve over time		
Describe the processes of peer review		
Evaluate the evidence that Darwin used to develop his theory of natural		
selection		
State some factors that may lead to extinction		
Explain why a species has become extinct		
Explain how a lack of biodiversity can affect an ecosystem		
Describe what is meant by an endangered species		
Describe some techniques used to prevent extinction		
Describe how preserving biodiversity benefits humans		
Describe how characteristics are inherited		
Describe the relationship between DNA, genes and chromosomes		
Explain how a DNA mutation may affect an organism and its future offspring	3	
Describe the structure of DNA		
Describe how scientist worked together to discover the structure of DNA		
Describe the difference between dominant and recessive alleles		
TEDM 2		
TERM 3		
TAL Name three magnetic elements		
ACTIONS Name the only metal and only non-metal that are liquid at room temperatu	re	
Identify an unknown element from its physical and chemical properties		
Name the substances formed when metals and non-metals react with oxyge	en	
Classify the substances formed when metals and non-metals react with oxyg		
Describe an oxidation reaction with a word equation and particle diagram	-	
State what is formed when metals react with acids		
Compare the reactions of different metals with dilute acids		
Describe a metal-acid reaction with a word equation and a particle diagram		
Name the substances formed when metals react with oxygen		
Compare the reactions of different metals with oxygen		
compare the reactions of unrelent metals with oxygen		

	Describe an oxidation reaction with a word equation and a particle diagram
	State what the reactivity series is and what it shows Place an unfamiliar metal into the reactivity series based on information about its
	reactions with water
	Describe an oxidation, displacement or metal acid reaction with a word equation
	Place an unfamiliar metal into the reactivity series based on information about its
	reactions
	Describe properties of ceramics
	Explain why a substance has a particular property based on how it was formed
	Describe the structure of a polymer
	Represent polymers using particle diagrams
	Explain how polymer properties depend on their molecules
MOTION AND	Calculate speed
PRESSURE	Describe relative motion
	Interpret distance-time graphs
	Calculate speed using distance-time graphs
	Sketch the forces acting on objects when there are contact forces acting
	Describe what happens when to a moving object when the resultant force acting
	on it is zero Synlain what linear relationship means
	Explain what linear relationship means Describe how fluids exert a pressure in all directions
	Calculate fluid pressure
	Explain the behaviour of object using ideas of pressure
	Describe how atmospheric pressure changes with height
	State how liquid pressure changes with depth
	Explain why some things float, and some things sink and how area affects up
	thrust
	Calculate pressure in liquids in a range of situations
	Describe what simple machines do
	Use a diagram to show how a lever works
CDACE	Compare the work needed to move objects different distances
SPACE	Describe the objects that you can see in the night sky Describe the structure of the Universe
	Explain the choice of particular units for measuring distances
	Describe the model of the Solar System
	Explain why we see objects in the Solar System and why they appear to move as
	they do.
	State what phenomena the Solar System model can be used to explain
	Explain why places on the Earth experience different daylight hours and seasons
	Name some phases of the Moon
	Describe the appearance of the Moon and planets from diagrams
	Explain why you see phases of the Moon.
THE EARTH	Name the three rock layers of the Earth
	Compare the layers of the Earth
	Describe how sedimentary rocks are formed Explain why a sedimentary rock has a particular property based on how it was
	formed
	Describe how igneous and metamorphic rocks are formed
	Explain why igneous and metamorphic rocks have particular properties based on
	how they were formed
	· · · · ·

	List the processes that interconvert sedimentary, igneous and metamorphic rocks Construct a labeled diagram to explain the processes of rock formation		
GL PREP	Students will be provided w	ith detailed prep	aration materials.
PROJECT	Students will develop their ownIndependent variable, dependentinvestigations to showcase the skills theyvariable, control variables, method,have built on during the year.apparatus, conclusion, evaluation,		variable, control variables, method,

## **Key Stage 3 Social Enterprise Curriculum Year 8**

key Stage 3 Social Enterprise Curricul	
Term 1 Topics/ Key Content	Term 1 - Overarching Key Questions
Zero Plastic – to examine the excessive use of plastic in our society, the consequences, and the negative impact of this on our planet. To seek innovative ways of using alternative materials and reconsider our disposable way of living. To work collaboratively to take-action supporting the prevention of this global issue.	How and why has the use of plastic saturated our daily lives? What actions can we take to show solidarity with the Climate Action SDG, and work together to offer solutions for this issue? How do our individual contributions impact this shared global community goal?
Term 2 – Topics/ Key Content	Term 2 - Overarching Key Questions
Make Space for Nature – to understand the causes of habitat loss and desertification and how this affects all life forms. To consider animal extinction and how to prevent this for future generations. To work collaboratively to take-action supporting the prevention of this global issue.	What human activities destroy animal habitats and threaten their existence? What actions can we take to work towards the Life on Land SDG, offering solutions and preventing the causes? How do our individual contributions impact this shared global community goal?
Term 3 – Topics/ Key Content	Term 3 - Overarching Key Questions
Diversity -WEK stories - To better understand our own school community and the individuals that come together to form WEK. To gain empathy for the challenges that individuals face through inequalities. To accept the diverse backgrounds and cultures that make up our community. To collaborate effectively to consider ways to take-action to reduce global inequalities.	How can we empower and promote the social, economic, and political inclusion of all here at WEK and in the global community? How can we collaborate to take-action toward the Reduced Inequalities SDG and have a positive impact?
Assessment Overview and Format:	Links for Home Learning/Extension Resources:
Students do not work towards grades in this subject area, but instead work to meet and exceed four principle areas of value: knowledge, project, service, and extension.	https://worldslargestlesson.globalgoals.org/ https://www.globalgoals.org/

# **Key Stage 3 Spanish Curriculum Year 8**

key stage 5 Spanish Curriculum	Teal o
Term 1 – Topics/ Key Content	Term 1 – Key grammar concepts
<ul> <li>Las Vacaciones: Holidays</li> <li>Talking about a past holiday</li> <li>Saying what you did on holiday</li> <li>Describing what you did on the last day</li> <li>Saying what your holiday was like</li> <li>Expressing opinions.</li> </ul> Project Zone: Presenting to an audience.	<ul> <li>Preterite of ir</li> <li>Preterite tense of regular verbs AR, ER, IR</li> <li>Spelling changes of sacar</li> <li>Making sentences negative</li> <li>Using sequences</li> <li>Extending writing with connectives and writing about others</li> <li>Preterite of ser Pronunciation of r and rr.</li> </ul>
Term 2 – Topics/ Key Content	Term 2 – Key grammar concepts
